What commission do you pay?

We have 2 types of pay out which can be pay-per-click or pay per sale basis, most common requested is pay per sale.

1. Pay per sale commissions are as follows:-

10% on all original & repeat sales...check your account online anytime!

\$25 referral fee for each new Affiliate you refer (\$25 will be added to your Monthly Commission check the Month after your referred Affiliate reaches \$250 in sales, qualifying them for commission)

Cookie duration (the length of time in which the purchasers' cookie remains allocated to you) = 99 years... But wait! Even if your customer clears their cookies, or logs into the site from a different computer, their email permanently ties them to your Affiliate account!

2. Monthly Commission Checks

Once a purchase is made, you get credit for the sale. The program keeps track of all the purchases made by visitors on your site. The running total of your earned commissions are tracked and available for your review 24 hours a day. Once your commissions accrue to \$25 or more, you will receive a commission check.

What sort of commitment will it take?

Our affiliate commitment varies from a simple link on their web site to 'multi campaign' based business ventures. You choose the level and income that you want/need.

Of course you can simply start with an affiliate link and then develop it from there.

We have a large selection of pre-made banners and can make more if required. You can also use text links and links that you can email. All of these can land on any active page on our website. We will issue you with your unique URL (link).
